Thanks Jesse, Tim,

That's helpful information. Tim, this change won't affect eligibility for EPA drinking water tribal set aside funding. It does sound like it will affect IHS regular funding eligibility.

We have a separate ranking system for EPA funding. I've attached our recent guidance (see page 16 for our ranking system). I'd be happy to discuss further with you.

Thanks,

Emmanuelle

Please: All data submittals to our office should be sent by email to datamanager@epa.gov with a copy to me (or your project manager in the Drinking Water Office). Data reports are due no later than the **10th** of the month following the month that you receive results, or the **10th** of the month following the compliance period, whichever comes first. Please include the whole lab report and copy of the Chain of Custody. Label with PWS name and number; & source or distribution system location codes or names for data collection points.

Thanks Jesse.

Emmanuelle, Let's discuss how this effects FY 2018 grant applications for HAMP ?

Subject: IHS SDS Scoring CY 2017 AZ09981-0601 Hopi Arsenic Mitigation Project (HAMP)

Morning Tim,

Per our conversation last Friday, the IHS Sanitation Deficiency System (SDS) score for AZ09981-0601 Hopi Arsenic Mitigation Project decreased from a 72 to a 54 for the CY2017 funding cycle. This was as a result of an IHS HQ Memorandum dated 3/21/2017 citing only "No piped water in home", "Unfiltered surface water used as primary water source", or "Evidence of fecal coliform in drinking water" as DL 4 conditions. Therefore, the arsenic MCL was reduced from a DL 4 condition to a DL 3 condition, which corresponded to changing the Deficiency Level and the Capital Cost Score to match the revised criteria.

There are two rating scores that could improve the current score of 54: increasing the Tribal Priority Points from 8 to 12 or 16 (i.e. of four total priority rankings of 16, 12, 8, and 4) and increasing the HPUA O&M Capability from 0 to a maximum of 16. Therefore, if other scores remain the same, there is a maximum HAMP score of 86 possible. I would not recommend trying to get any points changed this year as the project is not yet ready to fund, but when the time comes to fund the HAMP on the IHS side, these scores should be revisited. For reference, a score of 68 is what the IHS Phoenix Area cites as likely to be funded.

Please see the attached narrative report for the HAMP.

Thanks,

Jesse
